

Walesi is a Government initiative to provide free-to-air television to all Fijians, and ensure everyone has access to information, technology, and education.

As part of this initiative, Walesi has established a fund to supply a Set Top Box, and some other resources to villages where they can show a need.

To help us consider your application, we require you to answer the following questions. It is important that the person signing this application has the ability to speak on behalf of the village.

HOW WILL WALESi HELP YOUR VILLAGE?

Please tick the following categories which apply to your village, to confirm the Walesi products will be used for:

- Communal access (available in a place for use by all villagers)
- Educational purposes (local children will have access to watch television)
- Access to Information
- Watching local news
- Receiving communication before and following major weather events
- Support during civil defence emergencies (cyclones, tsunamis, and others)
- Participating in Government initiative programmes (climate change, insert others)
- All of the above
- Anything else? *(Please write in the box below)*

Walesi is currently working with our broadcast partners and Government Ministries on new content in particular to support the education of our children. This is likely to include language and various other programmes.

Please answer the following questions: *(Circle your answer below)*

Does your village have electricity or a generator? Yes / No

Do you have a television that is accessible to all in village?
(E.g. in a community or school hall) Yes / No

If yes, do you have a UHF antenna? Yes / No

Finally, by signing below, you confirm that the Set Top Box, antenna, and television will be for communal use and accessible to all villagers?
